Black Lime Stone:

These stones are also called as Lime Black and/or Cuddapa. The stones are relatively easy to cut into blocks or more elaborate carving. Lime black have been the architect's choice for decorating interiors as well exterior of the house. Due to the strong chemical and physical composition, they are long lasting and stands up well to exposure. The hard sedimentary rock can also withstand high temperature without loosing its integrity. Black limestone can be availed in different forms such as slab, tiles, etc. based upon the specific requirements.

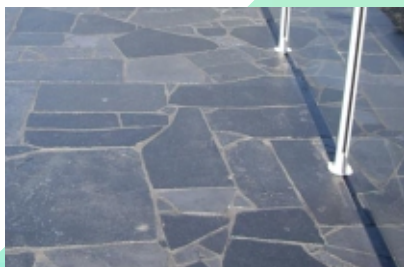

Tiles :

1. Lime Black Natural brushed
2. Lime Black Honed
3. Lime Black Honed Tumbled
4. Lime Black Natural Tumbled
5. Lime Black Natural
6. Lime Black Half Honed Tumbled
7. Lime Black Half Honed Brushed Tumbled
8. Lime Black Half Honed Brushed

Crazy Random Slabs:

We supply wide range of crazy random lime stone slabs packed in open crates, which can be used in pool side, garden paving etc. Slabs will be with natural finish thus increases the friction & reduces slippery issues.

► Black Random Laying

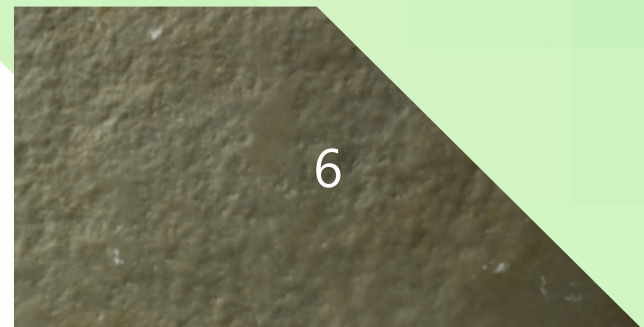

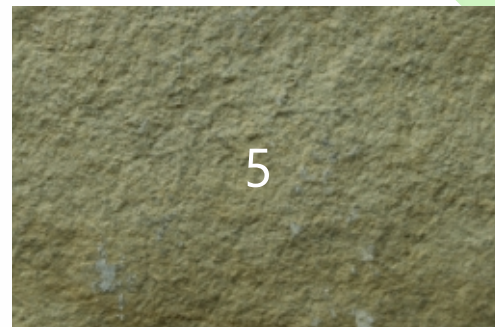

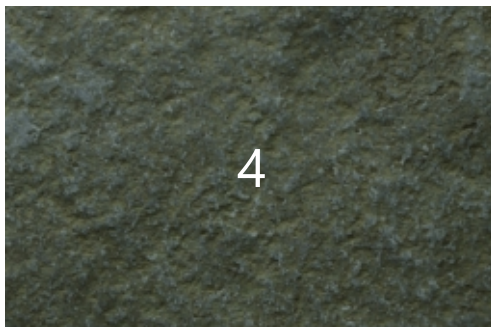

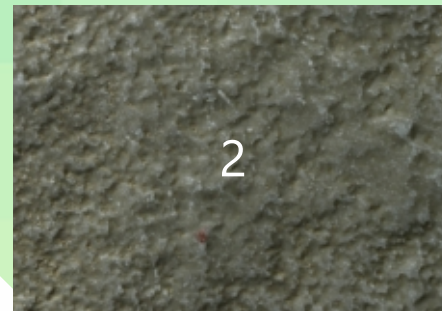

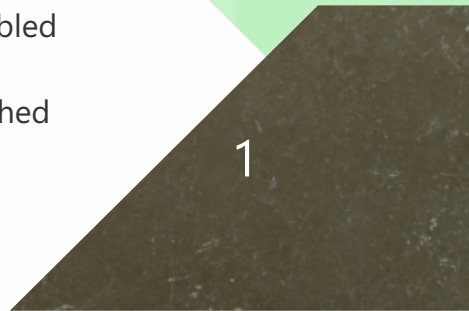

► Lime Black Crazy Random Crate

Yellow Lime Stone:

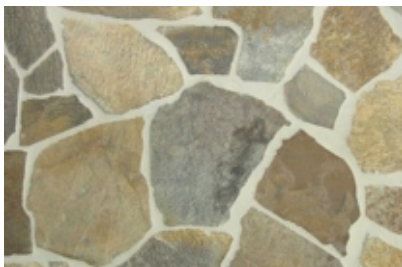

Yellow limestone also called as Lime Yellow or Tander yellow is a honey coloured limestone with subtle texture. The hardwearing Natural stone has soft edges and has been gently aged by tumbling process. Rated for the durability, Tander yellow limestone is a preferred choice for commercial applications. It is also great for paving, wall cladding and various landscaping projects. The material is frost resistant and does not turn brown even after consistent exposure. Tander yellow stone can be natural sawn, sandblasted brushed, honed and polished. The stones can be cut to size for specific requirement.
